

## ROCKFACE BLOCKS

WDL Rockface blocks are manufactured with selected natural limestone aggregates and Portland cement. They are robust, attractive in appearance and loadbearing. They can be used in many applications such as feature walls, garages, patio surrounds and steps etc. Their appearance will enhance garden area's without the need of maintenance.

### BLOCK SPECIFICATION

**Average compressive strength (N/mm<sup>2</sup>)**  
3.5 (N/mm<sup>2</sup>)

**Work size**  
440mm x 140mm

**Colour**  
Natural Grey

**Dry shrinkage (%)**  
0.03%

**Number per pack**  
100mm = 98  
140mm = 84

**Average block weight (KG)**  
100mm = 13.8  
140mm = 15.5

**Weight per pack (KG)**  
100mm = 1352kg  
140mm = 1302kg

**Number per sq/mtr**  
100mm = 15  
140mm = 15
